## **Autism Society of North Carolina**

The Autism Society of North Carolina is committed to providing support and promoting opportunities which enhance the lives of individuals within the autism spectrum and their families.

Founded in 1970 by a group of dedicated parents seeking services and support for their families, the Autism Society of North Carolina is a private, nonprofit organization that provides advocacy, public education, recreational programs, residential options, and vocational services to the nearly 30,000 North Carolina individuals living with autism spectrum disorder.

**For more information contact:**  
Autism Society of North Carolina

(919) 743-0204  
[www.autismsociety-nc.org](http://www.autismsociety-nc.org)

# **Dear Friends,**

The Autism Society of North Carolina Bookstore was founded in 1988 in response to parent requests for information on autism spectrum disorder (ASD). Over the past 16 years, our bookstore has grown to become the largest nonprofit ASD-specific bookstore in the United States, with over 400 titles in stock.

We strive to achieve three fundamental goals. The first goal is to provide a **wide selection** of quality books and merchandise to families, caregivers, educators, therapists, and other professionals who live or work with individuals with ASD. The second goal is to provide professional **personalized service**, by helping customers choose materials that are appropriate for their particular situation. The third (and most important) goal is sustaining our **nonprofit** mission. Unlike most other bookstores and book publishers, we use proceeds from our bookstore sales to provide services for people with ASD and their families.

You, too, can help keep bookstore profits in the ASD community by:

- **Purchasing ASD-related materials through our bookstore**
- **Showing this catalog to family members, friends, teachers, therapists, and other parents**
- **Giving interested individuals our website address:**  
[www.autismbookstore.com](http://www.autismbookstore.com)
- **Telling your school about our Autism Spectrum Resources Program**
- **Encouraging local ASD organization(s) to become an Autism Society of North Carolina Bookstore Affiliate.**

We are here to assist you. If you have questions regarding any of our products or services, please don't hesitate to contact us.

Sincerely,

Darla Coffey  
Manager, Autism Society of North Carolina Bookstore  
[dcoffey@autismsociety-nc.org](mailto:dcoffey@autismsociety-nc.org)

# Check out these great discounts!

## Autism Spectrum Resources Program for Schools

We created this new cost-saving program in order to help schools obtain additional educational resources for their classrooms and libraries.

All book, software, and video purchases submitted on an official school purchase order will automatically receive a 10% discount (excluding shipping) from our store. You must indicate **“Autism Spectrum Resources Program”** on your purchase order to receive the 10% discount.

If you prefer to make purchases through our website using a school credit card, **please contact us for the website discount code**. In order to qualify for the school website discount, **your materials must be shipped to a verifiable school address**.

## Autism Society of North Carolina Members

Dues paying members of the Autism Society of North Carolina receive a **10% discount** on their purchases (*excluding Autism Awareness Lapel Pins*). If you are already a member and would like to receive this discount, please be sure to include your **member number** on your order form. Orders without the member number will not receive this discount.

If you are not a member of the Autism Society of North Carolina, but would like to become one, visit the Society's website at [www.autismsociety-nc.org](http://www.autismsociety-nc.org).

## Would You Like to Earn Money for Your Organization?

Join the  
**Autism Society  
of North Carolina  
Bookstore**  
Affiliate Program  
Today!

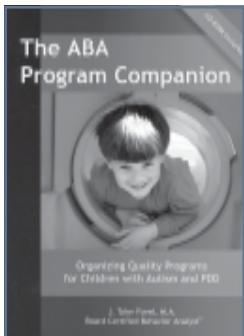

If you have an autism spectrum disorder-related website, join the **Autism Society of North Carolina Bookstore Affiliate Program** and you can start earning a commission on bookstore sales generated through your site. For more details, please visit our website at: [www.autismbookstore.com](http://www.autismbookstore.com).

**ABA Program Companion:  
Organizing Quality Programs for  
Children with Autism and PDD**  
by J. Tyler Fovel, M.A.

This guide was developed to help educational teams organize and implement Applied Behavior Analysis (ABA) programs, including home, school, and center-based programs. The book explains basic ABA concepts as well as specific teaching formats, and it contains numerous illustrations, charts, checklists, and forms. It also includes a CD-ROM containing curriculum design software based on the Autism Partnership curriculum from the book *A Work in Progress*. The software features more than 500 goals in 54 curriculum areas.  
(Softcover; 208 pages.)

Item # BACT01

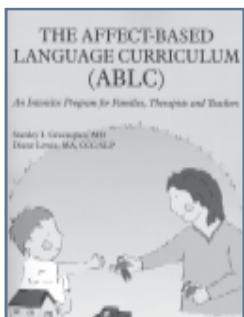

**\$38.00**

**Activities for Developing  
Pre-Skill Concepts in  
Children with Autism**

by Toni Flowers

Written for teachers in a classroom setting, this book includes activities for auditory development, concept development, social development, speech and language development, and visual-motor integration in children with autism spectrum disorder (ASD). The activities were designed to use at each child's individual level, and the information is presented in an easy-to-read format.

(Ring bound; 217 pages.)

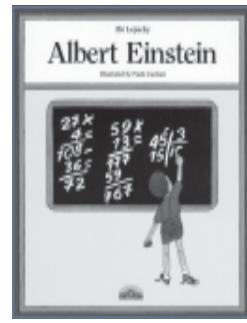

Item # BAFF01

**\$39.50**

**Affect-Based Language  
Curriculum (ABLC)**

by Stanley I. Greenspan, M.D., and  
Diane Lewis, M.A.

Written for families, therapists, and teachers, this is a comprehensive manual that describes the Affect-Based Language Curriculum (ABLC). ABLC is based on the theory that affective communication and engagement help children develop language skills. The ABLC program bridges "Floor Time" with speech and language therapy, and it utilizes a team approach involving family members and professionals. The book includes a CD-ROM that contains checklists, tracking sheets, and forms that can be used to map a child's progress.  
(Spiral bound; 284 pages.)

Item # BALB01

**\$6.95**

**Albert Einstein**

by Ibi Lepsky

Featured in several autism spectrum disorder (ASD) bibliographies, this book uses a famous role model, Albert Einstein, to illustrate how children who are viewed as "different" can grow up to make wonderful contributions to society as adults. Dr. Tony Attwood has recommended this book as a resource to help children understand their diagnosis. For children ages 4-8. (Softcover; 22 pages.)

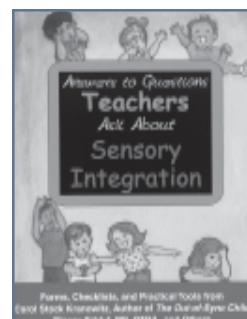

Item # BAL01

**\$16.95**

**All About My Brother**  
by Sarah Peralta

8-year-old Sarah has a younger, nonverbal brother named Evan who was diagnosed with autism spectrum disorder (ASD). Through simple depictions of Evan's day-to-day activities and behaviors, Sarah brilliantly conveys Evan's sensory issues, as well as their brother-sister relationship. This colorfully illustrated book will help young readers better understand a sibling or classmate who has ASD. For children ages 6-10.  
(Hardcover; 27 pages.)

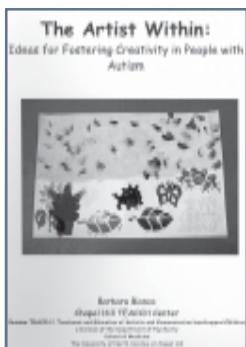

Item # BANS01

**\$14.95**

**Answers to Questions  
Teachers Ask About  
Sensory Integration**  
(2<sup>nd</sup> edition)

by Carol Stock Kranowitz, M.A.  
and Stacy Szklut, MS, ORT et al.

The author of *The Out-of-Sync Child* has written this book to help new and veteran teachers understand the sensory challenges children with autism spectrum disorder (ASD) face. The book includes diagnostic checklists, progress forms, and practical tools for working with children of all ages. (Softcover; 63 pages.)

Item # BART01

**\$18.95**

### Artist Within:

*Ideas for Fostering Creativity in People with Autism*

**by Barbara Bianco, Division TEACCH**  
The purpose of this booklet is to help parents and teachers incorporate arts and crafts activities into the lives of individuals with autism spectrum disorder (ASD). The projects have all been field tested by people with ASD, and the directions and information have been streamlined to help the creative process. Colorful pictures depict several arts and crafts projects. (Spiral bound; 35 pages.)

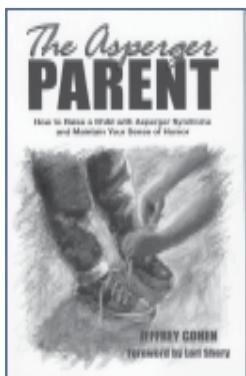

### Asperger Syndrome and Difficult Moments:

*Practical Solutions for Tantrums, Rage, and Meltdowns*

**by Brenda Smith Myles, Ph.D. and Jack Southwick, MSW**

This book provides a wealth of information for parents and professionals who work with children with Asperger Syndrome (AS). The authors discuss how AS affects behavior in children, as well as how stress can manifest itself, building to the point of "rage" at school or at home. The book describes in detail how to recognize stress factors, the nature of the rage cycle, and strategies for promoting self-awareness and relaxation in children. (Softcover; 106 pages.)

a

Item # BASP14

### Asperger Parent:

*How to Raise a Child with Asperger Syndrome and Maintain Your Sense of Humor*

**by Jeffrey Cohen**

The author is the father of an 11-year-old boy who was diagnosed with Asperger Syndrome (AS) at the age of 5. In a new twist, this book focuses on the needs of parents, and its approach is that of a support group in book form. Dealing with parent issues such as "going public," vacations from parenting, and single parent dating, this book addresses the concerns and feelings that many parents share. Written with humor and compassion, this book provides welcome emotional support for parents of children with AS. (Softcover; 244 pages.)

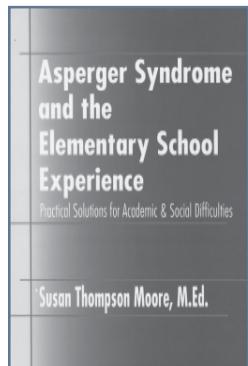

Item # BASP04

**Asperger Syndrome—Practical Strategies for the Classroom:**  
*A Teacher's Guide*  
**by Leicester City Council and Leicestershire County Council**  
 This guide outlines the many difficulties a student with Asperger Syndrome (AS) may experience in the classroom. The topics addressed include: social relationships, communication, imagination and rigidity, sensory and motor difficulties, emotional difficulties, and work skills. The book provides many practical strategies for teachers, and it is a valuable resource for all individuals working in an educational setting. (Softcover; 52 pages.)

Item # BASP16

**\$15.95**

**Asperger Syndrome:**  
*What Teachers Need to Know*  
**by Matt Winter**  
 This book was written as an introduction for teachers who are encountering a student with Asperger Syndrome (AS) for the first time. It provides basic, current information about AS as it pertains to teachers, and it also provides quick tips and strategies that teachers can implement in their classrooms immediately. The author, who is also an educator, addresses key school-related issues such as social skills, homework, playground behavior, and more. (Softcover; 96 pages.)

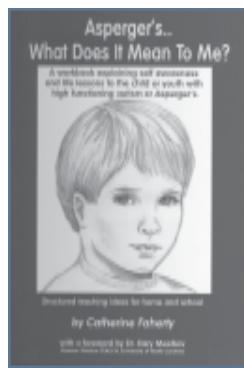

Item # BASP06

**\$18.95**

**Asperger's Syndrome: A Guide for Parents and Professionals**  
**by Tony Attwood**

This book provides parents and professionals with a basic overview of Asperger Syndrome (AS). The author incorporates case studies and frequently asked questions into the text, and he covers such topics as: diagnosis, social behavior, language, motor clumsiness, cognition, and sensory sensitivities. This is a standard reference work written by a well-known expert in the field. (Softcover; 223 pages.)

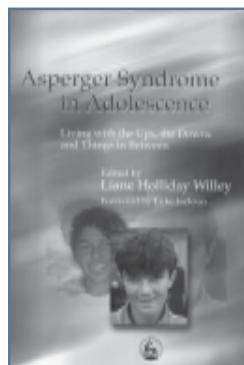

Item # BASP09

**\$39.95**

**Asperger's— What Does It Mean To Me?: Structured Teaching Ideas for Home and School**  
**by Catherine Faherty**

This manual is an in-depth resource designed to help children with Asperger Syndrome (AS) learn more about their diagnosis and themselves. Each chapter is divided into a workbook containing pages for children to fill in, and a section containing related ideas and practical strategies for parents and teachers. Many of the examples are TEACCH Structured Teaching strategies widely used by parents and professionals. Concepts covered include: ways of thinking, communication, school, friends, and much more. (Spiral bound; 306 pages.)

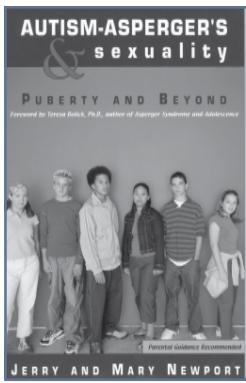

Item # BAUT23

**Autism, Advocates, and Law Enforcement Professionals**  
**by Dennis Debaudt**

In this book, the author has expanded upon the information contained in his booklet *Avoiding Unfortunate Situations*. This volume provides more detailed information for law enforcement officers, and is divided into two sections: "The Law Enforcement Perspective," and "The Citizen's Perspective." This book is a valuable training tool, and it can be used in conjunction with the video *Autism Awareness for Law Enforcement and Community Service Personnel*. (Softcover; 142 pages.)

Item # BAUT25  
**\$24.95**

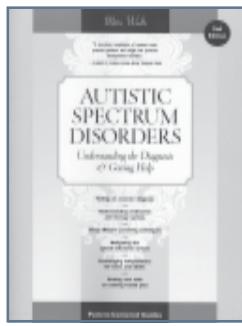

### Autism-Asperger's and Sexuality:

*Puberty and Beyond*

**by Jerry and Mary Newport**

As a husband and wife with Asperger Syndrome (AS), the authors share their personal experiences about growing up in the confusing world of puberty and sexuality. The book is filled with humor and compassion, and adolescents and adults will benefit from the advice offered here. Written in a very frank style, parental guidance is recommended.

(Softcover; 168 pages.)

Item # BAUT29  
**\$29.95**

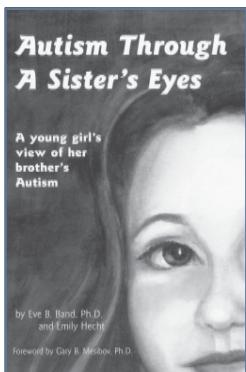

### Autistic Spectrum Disorders:

*Understanding the Diagnosis and Getting Help (2nd edition)*

**by Mitzi Waltz**

This handbook provides a comprehensive overview of autism spectrum disorder (ASD) based on the latest medical research. The author addresses a broad range of critical issues pertaining to ASD, including: getting a diagnosis; medical, therapeutic, and alternative interventions; insurance; school and family issues; and more. The book also includes hundreds of resource listings for related publications, organizations, websites, research and testing facilities, and medications. This book will be especially valuable to new parents.

(Softcover; 511 pages.)

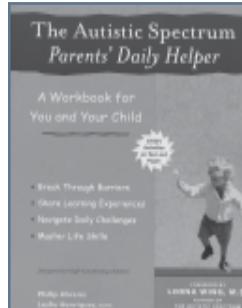

Item # BAUT27  
**\$14.95**

### Autism Through A Sister's Eyes

**by Eve B. Band, Ph.D. and Emily Hecht**

Created for children (especially siblings), this insightful book answers many questions that young people will ask when living with a brother or sister on the autism spectrum. Although written by a clinical psychologist, this story gives voice to the real questions that 9-year-old Emily Hecht asked about her older brother Daniel, who has high-functioning autism (HFA). In these pages, Emily discusses her feelings about Daniel, his difficulties, and their brother-sister relationship. This is a recommended resource for families, teachers, and therapists. For children ages 7-12.

(Softcover; 67 pages.)

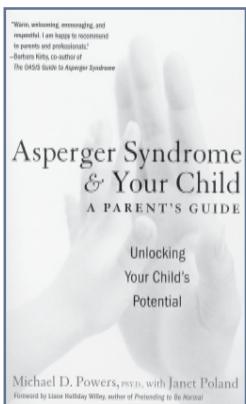

Item # BAUT32  
**\$16.95**

### Autistic Spectrum Parents' Daily Helper

**by Philip Abrams and Leslie Henriques, M.P.H.**

This guide was created to help children with high-functioning autism (HFA) navigate everyday situations. Filled with a variety of visual aids, the book is divided into three sections: a workbook for parents, a workbook for the child with HFA, and a set of reproducible tear-out sheets. The guide introduces activities and exercises that can be used to help a child with HFA in a variety of skill areas, including: communication, self-care, safety, and much more. The book does not endorse a specific educational intervention. Rather, it utilizes numerous techniques that have worked effectively for the authors in practice. This is a hands-on resource that will help children with HFA create their own visual record of everyday experiences.

(Softcover; 220 pages.)

Item # BAUT18

Item # BBEH01  
**\$45.00**

**Behavioral Intervention for Young Children with Autism:  
A Manual for Parents and Professionals**

**edited by Catherine Maurice; co-edited by Gina Green and Stephen C. Luce**

In this manual, the contributing authors answer the key questions asked by parents who are seeking an effective treatment for their newly diagnosed child. The text is based on the premise that Applied Behavior Analysis (ABA) is the most effective intervention for treating individuals with autism spectrum disorder (ASD). (Softcover; 400 pages.)

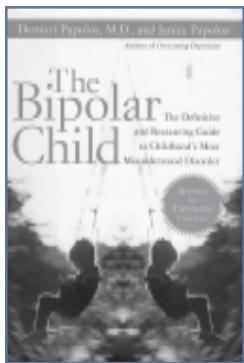

Item # BBOY03  
**\$25.00**

**Boy Who Loved Windows:  
Opening the Heart and Mind of a Child Threatened With Autism**

**by Patricia Stacey**

In this book, the author has written a thought-provoking and intelligent account of her struggle to help her son Walker, who began to show signs of autism spectrum disorder (ASD) at a very early age. The book also provides an in-depth parent's view of the implementation of "Floor Time," Dr. Stanley I. Greenspan's well-known interactive intervention. Written by a gifted writer, this memoir will inspire parents and professionals who live or work with children with ASD. (Hardcover; 300 pages.)

Item # BBIP01  
**\$26.00**

**Bipolar Child:  
The Definitive and Reassuring Guide to Childhood's Most Misunderstood Disorder**

**by Demitri Papakos, M.D. and Janice Papakos**

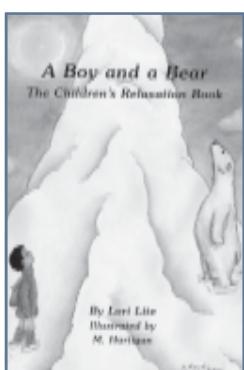

This revised and updated edition includes important new information in the following areas: medication, nutrition, bipolar disorder and learning disabilities, family issues, and bipolar disorder in adolescence. The book provides comprehensive information on diagnosis and treatment, the genetics of bipolar disorder, and living and coping with the disorder at home and at school. The book also discusses the relationship between mood disorders and autism spectrum disorder (ASD) in families. (Hardcover; 452 pages.)

Item # BBOY02  
**\$10.00**

**Boy Who Swam In the Stars  
by Derrik Eichelberger**

This is a modern fairy tale about a young boy who speaks few words and who wants to swim in the stars. This beautifully illustrated book was written by a father whose son has autism spectrum disorder (ASD). For children ages 4-10. (Softcover; 22 pages.)

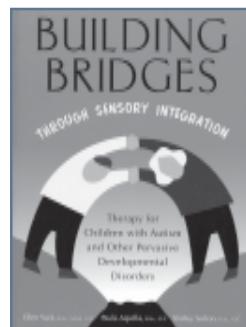

Item # BBOY04  
**\$11.00**

**Boy and a Bear:  
The Children's Relaxation Book**

**by Lori Lite**

This illustrated fictional story is about a boy and a bear who meet after they both decide to climb a snow-covered mountain. The book was written to teach children the relaxation technique called "circular breathing," and in the story the boy teaches the bear this breathing technique. By the end of the book, the boy and bear are so relaxed they both fall asleep. For children ages 3-10. (Softcover; 30 pages.)

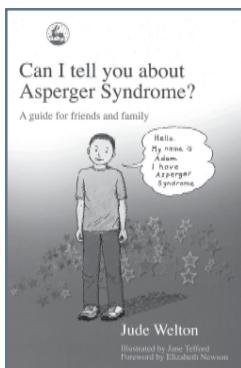

Item # BBUI01  
**\$34.95**

**Building Bridges Through Sensory Integration:  
Therapy for Children with Autism and Other Pervasive Developmental Disorders (2nd edition)**

**by Ellen Yack, M.Ed., OT, Paula Aquilla, OT, and Shirley Sutton, OT**

Written by occupational therapists, this updated edition provides activities and intervention strategies for children with autism spectrum disorder (ASD) and other developmental delays who have sensory processing and motor planning difficulties. Topics discussed include: occupational therapy, sensory integration and sensory dysfunction, and much more. Filled with helpful illustrations, checklists, and visual aids, this is a practical resource for parents, therapists, and educators. (Spiral bound; 207 pages.)

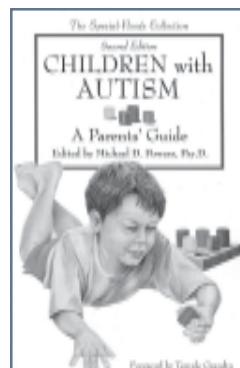

### Can I Tell You About Asperger Syndrome?: A Guide for Friends and Family by Jude Welton

This book was written for young people so they can better understand the challenges faced by a sibling, friend, or classmate who has Asperger Syndrome (AS). Told from the perspective of a boy with AS named Adam, this fictional story discusses such topics as: feelings, body language, unexpected change, and how kids can help others with AS. This book is also an excellent tool for children and adolescents to help them understand their own diagnosis of AS more fully. For readers ages 7-15. (Softcover; 40 pages.)

### Children with Starving Brains:

*A Medical Treatment Guide for Autism Spectrum Disorder (2<sup>nd</sup> edition)*

by Jaquelyn McCandless, M.D.

Written by an experienced physician who is the grandmother of a child with autism spectrum disorder (ASD), this book takes a biomedical approach toward the treatment of ASD. It is the author's view that children with ASD are medically ill, and that they can improve greatly with the proper diagnosis and treatment of their underlying medical condition. This book was written for parents who wish to explore treatment for their children through dietary, nutrient, and detoxification methods.

(Softcover; 294 pages.)

### Childhood Speech, Language and Listening Problems:

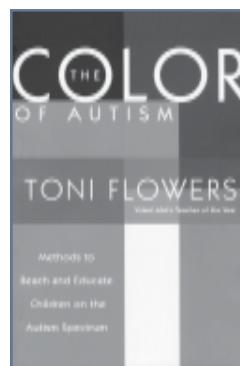

*What Every Parent Should Know (2<sup>nd</sup> edition)*

by Patricia McAleer Hamaguchi

Written by a speech-language pathologist, this book was created for parents who suspect their child may have a communication disorder. The first section of the book contains important introductory information, including: how speech, language, and listening develop; the warning signs of a communication disorder; and having a child evaluated. The second section of the book examines specific communication problems in greater detail. (Softcover; 218 pages.)

### Creating a "Win-Win" IEP for Students with Autism: A How-To Manual for Parents and Educators (2<sup>nd</sup> edition)

**by Beth Fouse, Ph.D.**

This handbook provides the necessary information and skills needed to meet the requirements of the Individualized Education Program (IEP). The book is very useful for parents of newly diagnosed children, and it also contains important information for parents and educators who have more experience with the IEP process. The author guides the reader from the initial stages of identification and diagnosis to the full implementation and monitoring of the IEP, and she also discusses related laws and legislation.

(Softcover; 268 pages.)

Item # BCUR02

**\$12.00**

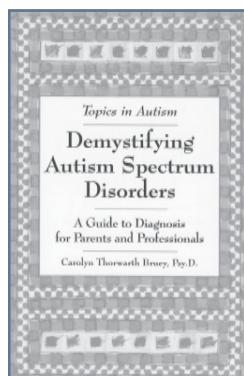

*Winner of the 2003 Whitbread Book of the Year Award.*

### Curious Incident of the Dog In the Night-Time

**by Mark Haddon**

This widely acclaimed and best-selling novel is narrated by 15-year-old Christopher Boone, a teenager with high-functioning autism (HFA). Christopher's literal-minded descriptions immediately transport the reader into the mind of a person on the autism spectrum, as he tells the story of how he tries to solve the mystery of the murder of his neighbor's dog. For adolescents and adults.

(Softcover; 226 pages.)

Item # BDEM01

### Demystifying Autism Spectrum Disorders

**by Carolyn Thorwarth Bruey, Psy.D.**

The developmental "red flags" of autism spectrum disorder (ASD) can often be confusing, and this book was developed to help parents and professionals understand the diagnostic process more fully. Chapters include: suspecting your child may have ASD; the history, myths, demographics, and theories of cause of ASD; the diagnostic process; and much more. Filled with case studies and presented in a highly readable question-and-answer format, this guide is an important resource for parents, professionals, and caregivers.

(Softcover; 241 pages.)

Item # BDEV03

**\$24.95**

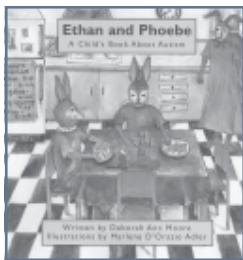

### Developing Play and Drama in Children with Autistic Spectrum Disorders

**by Dave Sherratt and**

**Melanie Peter**

In this book, the authors present a play-drama intervention based on the theory that all children can learn through play. The book shows that play and drama evoke emotional reactions in children, which can put children with autism spectrum disorder (ASD) directly in touch with their feeling responses and enable them to see how events and experiences come together to have a meaning.

(Softcover; 166 pages.)

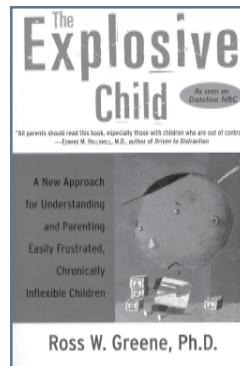

### Ethan and Phoebe: A Child's Book About Autism by Deborah Ann Moore

This illustrated fictional story is told from the point of view of Phoebe, whose younger brother Ethan has autism spectrum disorder (ASD). Throughout the story Phoebe talks about Ethan with complete compassion and acceptance, and it is clear that she understands not only Ethan's difficulties, but also her parents' challenges. For children ages 4-8. (Softcover; 31 pages.)

Item # BETH01

### For Parents, By Parents:

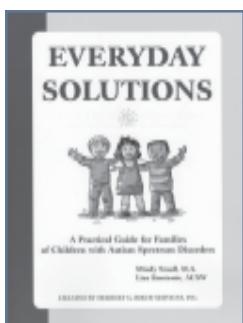

*A Resource Guide*

by the Parent Network,  
Interdisciplinary Council on  
Developmental and Learning  
Disorders

This newly revised edition is an invaluable guide for parents of children with developmental and learning disorders. The purpose of the book is to help parents in the early stages when they discover there may be a problem with their child's development. The information is provided in seven sections, ranging from biomedical interventions to sensory processing. The book also contains hundreds of resource listings. This is a highly recommended resource for parents of newly diagnosed children. (Spiral bound; 200 pages.)

Item # BFOR01

**\$29.00**

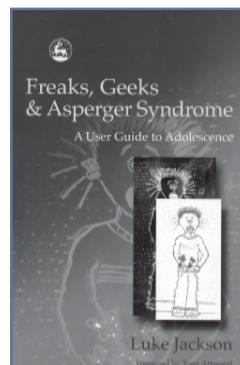

### Everyday Solutions: A Practical Guide for Families of Children with Autism Spectrum Disorders

by Mindy Small, M.A. and Lisa  
Kontente, ACSW

This practical guide presents 37 everyday situations that may present difficulties for a child with autism spectrum disorder (ASD). Each situation is presented in the form of a vignette, and includes the following information: the problem defined; the possible relevance to ASD; recommendations and strategies; and a summary conclusion. The book provides many valuable tips, ranging from personal care and safety issues to social skills and novel situations. Written for parents and caregivers, it also contains numerous visual strategies. (Softcover; 111 pages.)

### Freaks, Geeks, and Asperger Syndrome: A User Guide to Adolescence

by Luke Jackson

The author, who was 13 when he wrote this book, is an expert on what life is like for an adolescent with Asperger Syndrome (AS). He discusses a wide range of issues that will be of great interest to teenagers, including: school, homework, bullying, socializing, and dating. He also describes how AS has affected him in the areas of sensory perception, language, diet, sleep, and overall physiology. This book is a much-needed resource for adolescents with AS and their families. (Softcover; 215 pages.)

## Friendship Factor:

*Helping Our Children Navigate Their Social World—And Why It Matters for Their Success and Happiness*

**by Kenneth H. Rubin, Ph.D. with Andrea Thompson**  
The author, who has spent over 25 years researching friendship, shares the findings of recent and ongoing studies regarding a child's psychological and emotional development as they relate to friendship and peer groups. The book reveals that peers and parents are both instrumental in the process of a child's growth, and that social skills are (and can be) learned. (Softcover; 322 pages.)

## Helping a Child with Nonverbal Learning Disorder or Asperger's Syndrome:

*A Parent's Guide*

**by Kathryn Stewart, Ph.D.**

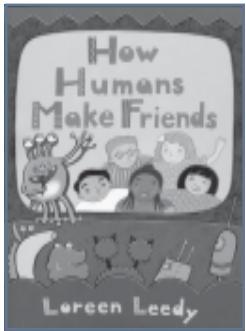

This guide teaches parents the key strategies necessary to understand these neurocognitive disorders. It is a complete resource that addresses issues of diagnosis, language difficulties, visual-spatial and information processing problems, and social competency. It also contains an extensive section on intervention and program planning. (Softcover; 179 pages.)

**Helping Your Anxious Child: A Step-By-Step Guide for Parents**  
**by Ronald M. Rapee, Ph.D., et al.**  
Written primarily for parents, this book describes the common types of anxiety in children and offers effective techniques to help children master their fears. Topics include: how to recognize if a child needs help; how thoughts and feelings affect anxiety; learning to think realistically; relaxation and its effect on anxiety; ways that parents can help a child manage anxiety; reality testing; social skills and assertiveness; and sample programs and future planning. (Softcover; 160 pages.)

**Inclusive Programming for  
Middle School Students  
with Autism/Asperger's  
Syndrome**

by **Sheila Wagner, M.Ed.**

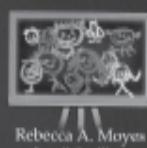

In this volume, the author focuses her expertise on the challenging middle school environment, and once again she provides valuable information, along with issues to consider, when administering an inclusive program for students on the autism spectrum. This book is highly recommended for both educators and parents.

(Softcover; 227 pages.)

## Incorporating Social Goals in the Classroom

A Guide for Teachers and Parents of Children with High-Functioning Autism and Asperger Syndrome

Rebecca A. Moyes

Foreword by Temple Grandin

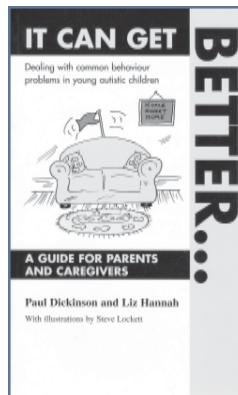

Item # BINC03

**\$22.95**

## Incorporating Social Goals in the Classroom:

*A Guide for Teachers and Parents of Children with High-Functioning Autism and Asperger Syndrome*  
by **Rebecca A. Moyes**

Written for parents and teachers of children with high-functioning autism (HFA) and Asperger Syndrome (AS), this book contains practical advice for teaching social skills to children in the classroom. The author illustrates a wide range of social behavior and communication problems, and she also discusses sensory differences in children on the autism spectrum. (Softcover; 187 pages.)

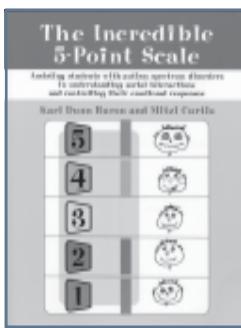

## It Can Get Better:

*Dealing with Common Behaviour Problems in Young Autistic Children*

by **Paul Dickinson and Liz Hannah**

This concise guide for parents and caregivers discusses key behavior issues in children with autism spectrum disorder (ASD). Behavior problems related to temper tantrums, toileting, sleep, feeding, play, and self-injury are addressed. This accessible guide is filled with many tips, ideas, and humorous illustrations, and it will help parents respond positively to daily behavioral challenges. (Softcover; 59 pages.)

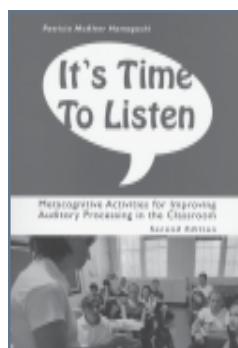

Item # BINC07

## Incredible 5-Point Scale

by **Kari Dunn Buron and Mitzi Curtis**

Written by autism resource specialists, this book shows parents and professionals how to implement a simple 5-point scale to help students with autism spectrum disorder (ASD) understand and control their emotional responses and behavior. Filled with numerous samples, this guide illustrates how to break down a variety of behaviors into simple concrete parts to help children with ASD understand what is expected of them. The 5-point scale strategy has also been used effectively with children and adolescents who have multiple diagnoses. (Softcover; 73 pages.)

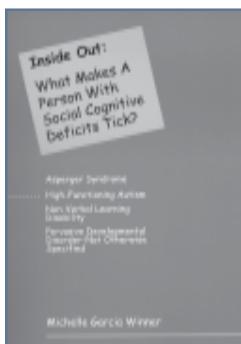

## It's Time to Listen:

*Metacognitive Activities for Improving Auditory Processing in the Classroom (2nd edition)*

by **Patricia McAleer Hamaguchi**

This manual was written to help educators and other professionals teach children in grades 2-6 how to listen more effectively in a classroom or large group setting. This guide contains practical and stimulating activities for children with weak auditory and attending skills, which can be caused by conditions such as central auditory processing disorder (CAPD), Asperger Syndrome (AS), high-functioning autism (HFA), and learning disabilities. (Spiral bound; 211 pages.)

Item # BINS01

## Inside Out:

*What Makes A Person with Social Cognitive Deficits Tick?*

by **Michelle Garcia Winner, M.A.**

The author, a speech-language pathologist, has written this easy-to-use manual to provide practical information that can be used in the home or at school. Filled with numerous techniques (including the LAUGH model), examples, and worksheets, this manual contains important information that will help students achieve communication success across a variety of environments and relationships. (Spiral bound; 207 pages.)

## Let Me Hear Your Voice

by **Catherine Maurice**

In this absorbing true story, the author describes her emotional journey after she discovers that two of her three children have autism spectrum disorder (ASD). The author vividly describes her family's highs and lows as she and her husband seek professional help for their daughter and son. Ultimately, it is Applied Behavior Analysis (ABA) that produces positive and significant developmental changes in their children. (Softcover; 371 pages.)

### Parent's Guide to Asperger Syndrome and High- Functioning Autism

**by Sally Ozonoff, Ph.D.,  
Geraldine Dawson, Ph.D., and  
James McPartland**

This is a complete handbook for parents of children with Asperger Syndrome (AS) and high-functioning autism (HFA). The authors clearly define these disorders, and they also offer detailed information on causes, diagnosis, and treatment. The book also provides a very important section on daily living covering topics such as: recognizing and capitalizing on a child's strengths; strategies for handling common behavior challenges; and school and academic issues.

(Softcover; 278 pages.)

### Parenting a Child with Asperger Syndrome:

**200 Tips and Strategies  
by Brenda Boyd**

The author, whose son was diagnosed with Asperger Syndrome (AS) at the age of 8, provides specific tips and strategies that address the most common problems parents of children with AS face. This practical handbook is arranged in an easy-to-read format, and it also includes additional ideas at the end of the book. The author's son, Kenneth Hall, wrote the book *Asperger Syndrome, the Universe, and Everything*.

(Softcover; 202 pages.)

Item # BPAR03

### Peer Play and the Autism Spectrum: *The Art of Guiding Children's Socialization and Imagination* by Pamela J. Wolfberg

This book was created as an Integrated Play Groups (IPG) field manual. The IPG model offers children on the autism spectrum specific guidance and support so they can play with their peers in conditions suitable for spontaneous play. Written for practitioners and caregivers, this training manual provides a comprehensive introduction to the basic principles, tools, and methods that comprise the IPG concept.

(Softcover; 264 pages.)

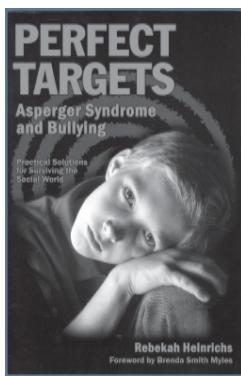

Item # BPIC01  
**\$45.00**

### Picture Exchange Communication System [PECS] Training Manual (2nd edition)

by Lori A. Frost, M.S. and Andy Bondy, Ph.D.

The PECS method teaches children to initiate a communicative act in order to obtain a concrete outcome within a social context. Children learn to communicate first with a single picture, and then they learn to combine pictures to master a variety of grammatical structures. The PECS method is based on the principles of Applied Behavior Analysis (ABA), and it utilizes specific teaching, reinforcement, and error correction strategies associated with ABA. (Spiral bound; 396 pages.)

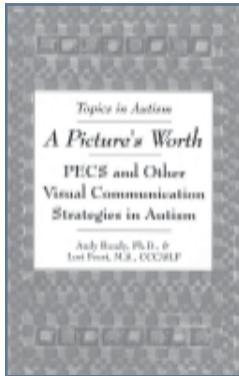

Item # BPER03  
**\$21.95**

### Perfect Targets: *Asperger Syndrome and Bullying* by Rebekah Heinrichs

This is a unique book that fills a gap in the autism spectrum disorder (ASD) literature. As the author notes, children and adolescents with Asperger Syndrome (AS) have a lack of social understanding that can lead to bullying by their classmates. This practical resource examines the social phenomenon of bullying and the social challenges and needs of children with AS. The author provides many insights and effective strategies for creating a bullying prevention program, and she also discusses specific environmental factors that foster bullying behaviors.

(Softcover; 189 pages.)

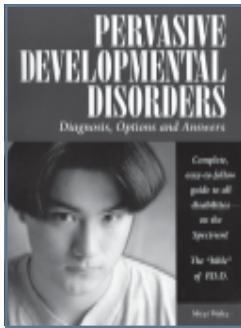

Item # BPIC02

**Reaching the Child with Autism Through Art**

by Toni Flowers

The author, an artist and educator, was voted "Teacher of the Year" in 1998 by the Autism Society of America. In this book, she provides fun and easy art activities that will enhance tactile and concept awareness and sensory motor skills in children with autism spectrum disorder (ASD). The author believes that children with ASD benefit significantly from artistic experiences because of the sensory and motor skills that are utilized and the positive feelings that are generated when children engage in a creative activity. This book includes projects in four areas of artistic expression: collage, painting, play, and sculpture. (Softcover; 124 pages.)

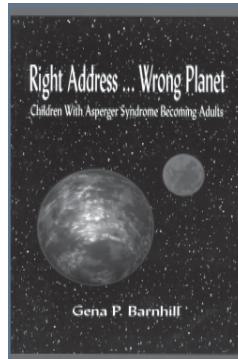

Item # BREL03

**Relationship Development Intervention with Children, Adolescents, and Adults**  
by Steven E. Gutstein, Ph.D. and Rachelle K. Sheely, Ph.D.

Relationship Development

Intervention (RDI) is an assessment and intervention model based on the philosophy that individuals with autism spectrum disorder (ASD) can participate in authentic emotional relationships if they are exposed to them in a gradual, systematic way. The authors, who are clinical psychologists and the creators of RDI, have written this book to provide social and emotional development activities for individuals with ASD. This manual contains a complete RDI curriculum, composed of 6 levels and 24 stages. Written for parents and educators, this is the second volume in a two-volume set of therapeutic activities designed for relationship development. (Softcover; 425 pages.)

**Running with Walker:**

*A Memoir*

by Robert Hughes

The author's son, Walker, began to show signs of autism spectrum disorder (ASD) by the time he was 3 years of age. The author, a keen observer and gifted writer, presents an absorbing father's account of the first 15 years of Walker's life. He discusses in great detail Walker's development, the family's frustrating experiences with doctors and other professionals, and Walker's ongoing medical issues, ranging from sleep problems to seizures. Now a teenager, Walker has made some progress, and the author's message is one of hope. (Softcover; 236 pages.)

### Songs of the Gorilla Nation:

*My Journey Through Autism*

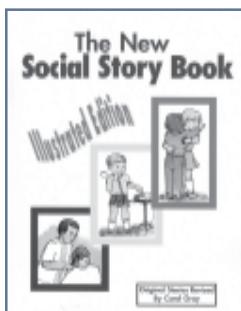

by Dawn Prince-Hughes, Ph.D.

This profound memoir was written by an anthropologist who was diagnosed with Asperger Syndrome (AS) at the age of 36. In vivid detail, she describes her often difficult childhood and her inability to connect socially, her need for repetition, her abnormal sleep patterns, and her sensory "addictions." School presented a painful series of problems for her, and she dropped out when she was sixteen and began living on her own. Seeking refuge in drugs and alcohol, she traveled the country and eventually settled on the West Coast, where she was homeless for several months. She finally found work as an exotic dancer, but it was a trip to the zoo that changed her life. Feeling safe and calm in the presence of gorillas, she began to learn everything she could about them. She took a job at the zoo, entered an interdisciplinary degree program, and was eventually mentored by anthropologist Jane Goodall. This is a beautifully written, intelligent, and captivating story.

**Work in Progress:**  
*Behavior Management Strategies and a Curriculum for Intensive Behavioral Treatment of Autism*  
edited by Ron Leaf, Ph.D. and John McEachin, Ph.D.

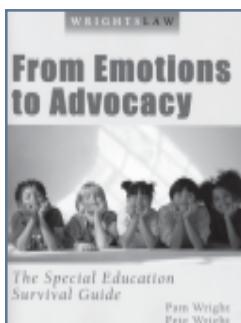

The authors are psychologists who have provided behavioral intervention to children with autism spectrum disorder (ASD) for more than 25 years. This book describes the principles and strategies of Applied Behavior Analysis (ABA), which uses intensive, early intervention teaching methods to increase a child's functioning in areas such as language, play, social development, and self-help. The book contains specific strategies for building skills and tackling difficult behaviors, and topics include: the foundation of intensive behavioral intervention, reinforcement, disruptive behaviors and behavior programs, self-stimulatory behaviors, sleep problems, toilet training, eating problems, and play and social skills. The second half of the book contains *The Autism Partnership Curriculum for Discrete Trial Teaching with Autistic Children*. This curriculum provides objectives and procedures for teaching children a variety of skills. (Softcover; 344 pages.)

Item # BYOU02

**You're Going to Love This Kid!:**  
*Teaching Students with Autism in the Inclusive Classroom*  
by Paula Kluth, Ph.D.

In this book, the author illustrates an alternative approach to educating students with autism spectrum disorder (ASD). Rather than an education that incorporates deficits, labels, and a less-than-positive attitude, the author describes methods for educating students with ASD based on holistic, individualized, and inclusive practices. This book shows teachers how to design lesson plans, create a safe and comfortable classroom, and how to encourage students to participate in classroom instruction, school routines, and social activities. Each chapter deals with a specific education issue, and provides practical examples of how students with ASD can be supported in the inclusive school or classroom. (Softcover; 286 pages.)

**Teaching Spontaneous Communication to Autistic and Developmentally Handicapped Children**  
edited by Linda Watson, Ed.D., et al.

This manual describes the communication curriculum developed by Division TEACCH to assess and teach communication skills to students with autism spectrum disorder (ASD) who are nonverbal or who speak at a simple sentence level. This curriculum is designed to be used by a teacher in a classroom setting in consultation with a language specialist, and it is aimed at children whose communication skills are comparable to abilities seen in typical children 3 1/2 years of age or younger. Chapters include: an introduction to communication in children with developmental delays; an overview of the curriculum model; the communication assessment process; analyzing the communication sample; identifying goals; home assessment and priorities; selecting teaching objectives; teaching strategies; and goal achievement activities. (Spiral bound; 139 pages.)
